

# *Fabulous* FRESH GREENS

*T*he scents and textures of fresh greens add a special ambience to any holiday décor.

Greenland's fresh greens are grown specifically for design purposes, so our boughs are very fresh, long and easy to work with.

### Cedar

- Leaves are fine in texture, lightly scented and have a great keeping quality
- Very popular

### White Pine

- Excellent long, fragrant needles
- A very elegant evergreen, retains needles well

### Douglas Fir

- Short, light green needles, very fragrant
- Airy texture makes it a great filler in planters and centerpieces

### Magnolia Leaves

- Large glossy leaves with a velvety brown backside
- An elegant accent, best used indoors

### Holly

- Excellent dark green leaves and red berries
- Good for texture variation
- Will freeze easily, for indoor use only
- Lasts well if placed in water or floral foam

### Lodgepole Pine

- Long graceful boughs tipped with buds
- Deep green needles
- Fragrant, long lasting

### Carolina Sapphire

- This feathery evergreen has a beautiful silver blue colour and a fragrance similar to silver sage
- A wonderful contrast to cedar and pine
